SUMMARY

Frontend Engineer with over 3 years of hands-on experience building developer platforms, internal tooling, and enterprise applications—progressing from intern to full-time Software Engineer I at Opsera.IO .

PROFESSIONAL EXPERIENCE

Software Engineer I 09/2024 – Present | Chennai, India
Opsera,IO

- Accelerated feature delivery by 30% using AI-assisted development workflows (Cursor, GitHub Copilot) while maintaining rigorous code quality and TypeScript standards.
- Delivered multiple features and enhancements across internal developer platforms.
- Led root-cause analysis for production incidents, resolving high-priority bug tickets and improving overall platform stability.
- Collaborated with product managers, designers, and backend engineers to deliver scalable solutions.
- Automated internal developer workflows using custom tooling, cutting deployment setup time for internal features.

Software Developer Intern 06/2023 – 09/2024 | Chennai
Opsera,IO

- Developed a reusable React/TypeScript component library used across multiple internal enterprise dashboards, reducing UI code duplication.
- Implemented end-to-end bug fixes and automated unit tests prior to production releases, ensuring higher code quality and seamless rollouts.
- Worked closely with senior engineers during production releases.

EDUCATION

Bachelor of Arts (English Major) 06/2024 – Present | Distance Learning
Indira Gandhi National Open University (IGNOU)

Full Stack Web Development Program 12/2022 – 05/2023 | Bangalore, India
Masai School

SKILLS

Frontend & Backend: React, TypeScript, JavaScript, HTML5, CSS3, Redux, Material UI, Tailwind, Bootstrap, Mantine, Node.js, Express.js, MongoDB

AI & Dev Tools: Git, GitHub, Cursor, GitHub Copilot, Playwright, Postman

PROJECTS

Book Stash

Built a full-stack AI-powered book management platform featuring GPT-4 generated summaries, multilingual note translation, recommendation engine, and cloud-based file storage.

Halo Chat

Real-time messaging platform built with Socket.IO supporting group chats, presence detection (online status/typing indicators), message receipts, file sharing, and Google OAuth.

React, Node.js, Express, MongoDB, Socket.IO, Chakra UI

HS Shop

E-commerce platform with product cataloging, secure user authentication, cart/wishlist management, coupon application support, and integrated Razorpay payment gateway.

React, Node.js, Express, MongoDB, Redux, Chakra UI, Razorpay

AWARDS

Experimental Rigor Award – Opsera Hackathon

- Recognized for the Timegrid Modernization project, evaluating AI-assisted development workflows using SoftwareForge and Claude.
- Analyzed engineering productivity, context retention, code quality, and software delivery efficiency through structured experimentation.
- Contributed to application modernization and workflow improvement recommendations.
